Professional Summary

Backend Developer Trainee with hands-on experience in PHP, PrestaShop, REST API development, and real-world client projects. Strong foundation in Data Structures, Object-Oriented Programming, DBMS, and Software Development. Experienced in developing AI-powered applications, voice assistants, and computer vision solutions. Passionate about building scalable backend systems and solving complex technical problems.

Education

Teerthanker Mahaveer University, Moradabad 2022 – 2026
Bachelor of Technology (Computer Science Engineering - Data Science)
CGPA: **9.72** (Till 7th Semester)
Senior Secondary (CBSE): 82.2
Higher Secondary (CBSE): 80.33

Experience

OGA Business Solutions Pvt Ltd Feb 2026 – Present
Backend Developer Trainee

- Working on real client projects using PHP and PrestaShop.
- Developing backend modules and business functionalities for e-commerce platforms.
- Designing and integrating REST APIs for web and mobile applications.
- Implementing new features based on client requirements.
- Debugging and optimizing existing backend systems.
- Collaborating with frontend and mobile teams to deliver scalable solutions.

Cogent Infotech Jun 2025 – Aug 2025
AI Intern

- Developed AI voice assistants using FastAPI, LangChain, WebRTC and Vapi.
- Built web scraping pipelines using BeautifulSoup and ParseHub.
- Implemented computer vision solutions using YOLOv8 and OpenCV.
- Collaborated using GitHub-based development workflows.

TCS iON Jun 2024 – Sep 2024
Data Analysis Intern

- Performed data analysis and visualization using Python and Power BI.
- Conducted data cleaning, preprocessing and exploratory data analysis.
- Generated business insights through dashboards and reports.

Projects

Vapi Voice Assistant

Technologies: React.js, TypeScript, Vapi SDK, WebSockets

- Built a real-time AI voice assistant with full-duplex communication.
- Integrated Speech-to-Text and Text-to-Speech pipelines.
- Managed low-latency audio streaming using WebSockets.
- Designed reusable UI components and dynamic character switching.

Smart Car Parking Detection System

Technologies: Python, OpenCV, YOLOv8, Streamlit

- Developed a real-time parking slot detection system using YOLOv8.
- Improved detection accuracy through optimized training techniques.
- Built a Streamlit dashboard for real-time monitoring.

HR Salary Analytics Dashboard

Technologies: Python, Pandas, Power BI

- Designed interactive dashboards for salary trend analysis.
- Performed data cleaning and exploratory data analysis.
- Delivered actionable business insights through visualization.

Technical Skills

Languages: Python, PHP, SQL, HTML, CSS

Frameworks/Libraries: FastAPI, Streamlit, Pandas, NumPy, OpenCV, YOLOv8

Databases: MySQL, SQLite

Tools: Git, GitHub, Postman, Power BI, MS Excel

Concepts: Data Structures and Algorithms, OOPs, DBMS, Operating Systems, Computer Networks, REST APIs

Achievements Certifications

- Finalist, Smart India Hackathon (SIH) 2025.
- Vice Chair, IEEE WIE TMU.
- Volunteer, IEEE UP Section.
- IIT Bombay Certified in C Programming (87
- Grade A in Statistics using R Python and Design Thinking (TCS iON).
- 2nd Runner-Up, Brain Manthan 5.0.
